FETÉN FETÉN_ The magical planet of unusual instruments

“The magical planet of unusual instruments” is a wonderful journey through a series of rhythms and melodies that make up the musical imagination of Fetén Fetén, all of which have been inspired by the popular music of Spain and other parts of Europe. In this way, the Burgos duo aims to instill values such as reusing, recycling, sustainability, and respect for the environment, as well as the importance of knowing one’s traditions.

The concert also includes a fresh look at some of the musical styles that come from very remote places and which now have become part of the “soundtrack” of a land like ours, one that has evolved thanks to the influence of different cultures that have enriched our way of understanding, experiencing and living music.

Waltzes, jotas, fox trots, paso dobles and other enjoyable rhythms make up the repertoire of this delightful family concert in which we can discover surprising instruments such as the Stroh violin, the hurdy-gurdy, the dustpan flute, the broom flute, the singing saw, the vulture wing bone, the theremin or the camping chair flute.

This entertaining show is a great opportunity to learn, smile and value some of the things that bring human beings together, as music is one of the most powerful tools for the harmonious coexistence of all the people on the planet.

Fetén Fetén is much more than just a musical project created by Jorge Arribas and Diego Galaz, it is the language of the soul made into harmony. More than a thousand concerts offered around the world make up the professional career of Diego and Jorge, who dynamically take us on a journey through our own essence with these performances in a way that is fun and full of enjoyment for all types of audiences.
